

Welcome to

Emory Rehabilitation Hospital and Outpatient Centers

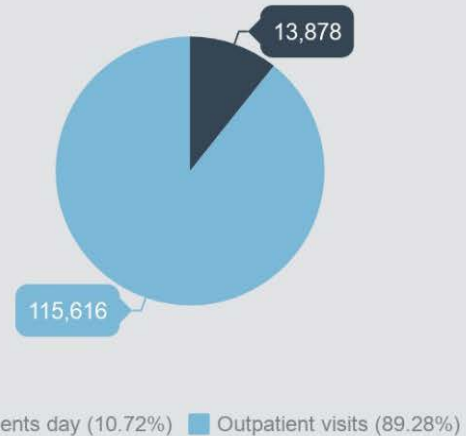

Eric Garrard, PT, CEO

Who we are

Emory Rehabilitation Hospital (ERH) specializes in stroke, brain injury, neurological disorders, spinal cord injury, amputation and orthopaedic rehabilitation. Services include physical, occupational, recreation and speech therapies. Our team balances hands-on care with high-tech treatment to address individual challenges.

ERH includes a 56-bed inpatient rehabilitation facility, as well as 24 outpatient rehabilitation facilities and a day rehabilitation program.

Patients served in 2016

Timeline
